8th May 2024

Dear Families

Students in Year 8 will soon be choosing their subjects for Year 9 in Design. In Year 7 and 8, all students study four subjects in total on a rotation which takes place half-way through the school year. In year 9, students will study two different subjects in that faculty for the whole year. They will be able to choose from Food & Nutrition, Graphic Products, Textiles, Resistant Materials or Engineering.

A survey will be sent out to the students this week which they will complete in their Design lessons with the support of the teachers. Students will be asked to choose **three subjects** that they would like to study, ranking them in order of preference. They will receive a letter in June letting them know which **two subjects** they will study in Year 9.

If you have any questions about this process, please do not hesitate to contact the school.

Yours sincerely

Steve Smith
